## Mobacar

Mobacar is an advanced Artificial Intelligence and Travel Technology company. We are a successful high growth technology company with offices in Kerry and Dublin. Our approach to analytics at the core, makes this a unique opportunity for a Data Analyst to work in an advanced, AI driven environment. We strive on creativity and the successful growth and development of our team. Our technology, our team and our products are gaining global acclaim for our innovation and approach. Every new team member is carefully selected to ensure not only that Mobacar will continue to disrupt the travel industry but that each new member has a clear path to grow and develop.

Mobacar has a unique approach which combines Data Science and Customer Experience techniques to increase short term conversions & revenue and the long-term customer performance of our partners.

## Job Description

The position requires a Data Analyst with excellent experience in high volume transaction environments.

The responsibilities include:

- Ad-hoc analysis based on transactional, market and behaviour data
- Design of analytics processes to enable other users
- Design and Development of business focused reports and dashboards
- Directly work with partners to understand needs and requirements
- Work with product management to design analytics into applications
- Work directly with development on embedding analytics into applications
- Work with Data Management to standardise data processes around analytics
- Support data science with analysis and visualisation for model development, testing and monitoring

The position is based in Killarney, Co. Kerry.

## Skills and Experience

- 3+ years' experience in data analysis
- Experience of Business Intelligence or Visualisation packages such as Tableau, Qlik, SAS, SAP, Tibco etc.
- Knowledge of database technologies such as MongoDB, MySQL, ElasticSearch, Redshift
- Knowledge of Spark is a bonus
- Good SQL skills
- Ability to work well in an agile team while taking responsibility for core development decisions
